FLEXIBILITY FOR THE **WORKPLACE OF THE FUTURE**

Work is changing. Spaces are becoming places for sharing ideas, creating and collaborating. This calls for solutions that provide structure and which are at the same time flexible – to promote a working culture that is flexible, people-centred and forward-looking.

SYSTEM4 is a modular furniture system that adapts to these requirements. The cleanly designed elements are made of chrome and powder-coated metal to combine timeless design with a wide range of functional possibilities. This creates working environments that adapt and evolve.

Whether it's a reception area, an office or a meeting area, **SYSTEM4** creates spaces that can be transformed without compromising their identity. For businesses that keep up with the times and are redefining the world of work.

WELCOME YOUR **CUSTOMERS**

The **SYSTEM4** reception desk lets you greet your visitors with timeless understated elegance and a clean, simple design.

Sloped shelves for leaflets, as well as built-in compartments and drawers, ensure everything is tidy and makes a professional first impression.

WORKING TOGETHER – **STAYING FLEXIBLE**

Modern working environments demand flexibility and interaction. **SYSTEM4** offers you a flexible way to design workspaces – from shared workstations to open-plan project work zones.

Functional tables make efficient use of space while rolling caddies provide extra manoeuvrability. This creates workspaces that support both individual work and spontaneous collaboration – flexible, functional and tailored to a range of requirements.

FLEXIBLE SYSTEM COMBINATION

Flexible system combinations with rolling sideboards help to structure the open-plan area and create versatile work zones.

Mobile elements allow for flexibility and support a variety of working styles in open-plan spaces.

INDIVIDUALITY

Whether as a sideboard, a rolling cabinet or desk, **SYSTEM4** offers modular versatility for personalised, adaptable and expandable space solutions.

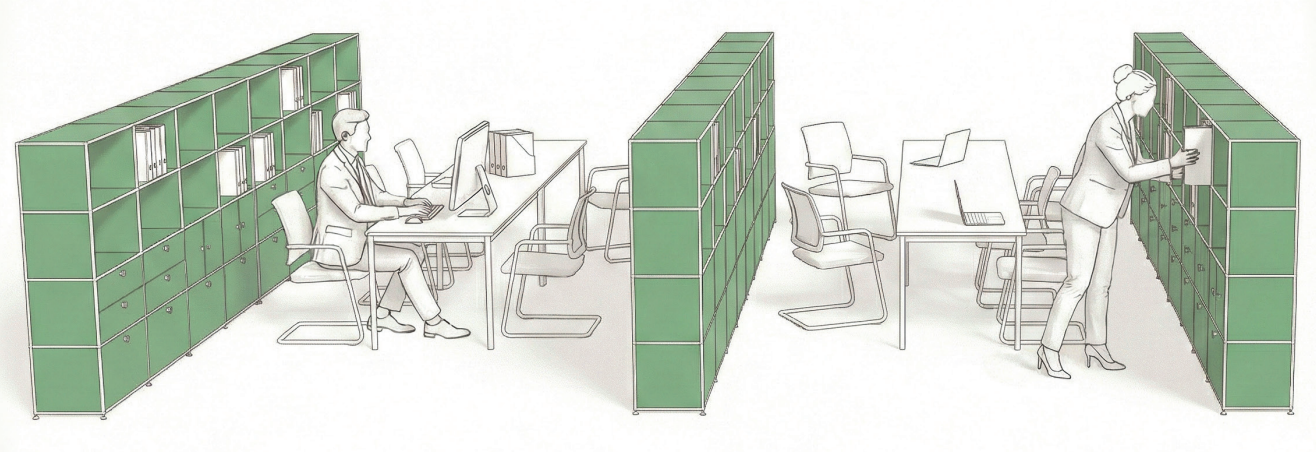
Practical storage and an orderly arrangement create a calm working atmosphere. Compact solutions let you make the most of even small spaces – all in a high-quality design.

SPACE FOR **TEAMWORK**

Collaboration – in person or remote – is more important today than ever before. It lays the foundations for innovation, efficiency and quality.

The modern workplace is open-plan, versatile and flexible. That is exactly what **SYSTEM4** stands for: a furniture system that adapts to changing requirements and creates spaces that support both communication and focus.

Whether it's storage space, room dividers or meeting points, **SYSTEM4** combines functionality and design using a streamlined, modular concept.



SHELF 796

VERSATILITY FOR **CO-WORKING SPACES**

Co-working spaces thrive on diversity: a variety of users, changing teams and flexible ways of working.

SYSTEM4 offers precisely this flexibility. Mobile and modular elements allow for customised zoning – for focused work, impromptu meetings or quiet spaces for discussions. This way you can create spaces that can be rearranged at any time, without sacrificing clarity or design.

Whether for a workspace, storage or a partition, **SYSTEM4** combines functionality and high-quality design in a consistently modular system – ideal for dynamic working environments with changing requirements.

THE CLASSIC **WORKSPACE**

Timeless aesthetics, well-conceived functionality and clear structures are what characterise **SYSTEM4** workspaces. Whether it's a single, double or team workstation – every element elegantly combines design and efficiency.

The modular system creates spaces that are conducive to focus and collaboration in equal measure. Tables, shelves and storage solutions blend harmoniously to create flexible workspaces that adapt to the demands of daily work.

SYSTEM4 is synonymous with maximum functionality, well-designed storage solutions and workspaces with character – precise, modular and built to last. For a quiet, focused working environment.

STRUCTURED & ORGANISED

Linear desks, partition walls and office containers create a structured and organised environment. A range of container models offer storage space to suit individual working styles.

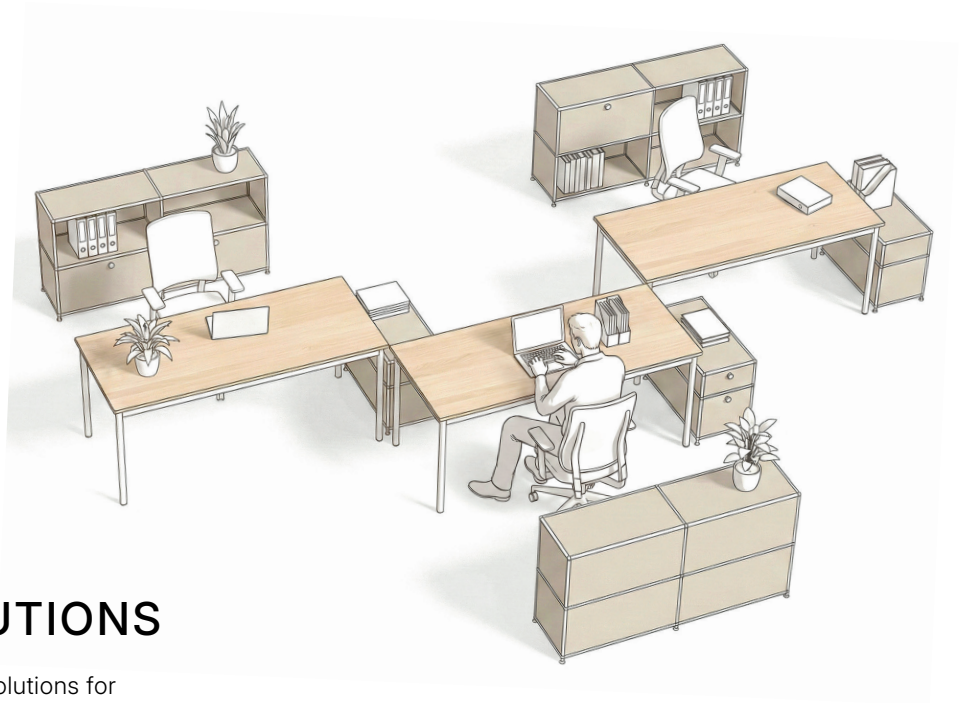
THE INDIVIDUAL **WORKSPACE**

Unlimited possibilities for personalisation: adjustable table tops and a wide range of colours for our modular furniture give you the freedom to create your own design – beyond the standard options. This allows you to design workspaces that feel homely and blend harmoniously into the existing surroundings. A system that emphasises personality.



CREATIVE SOLUTIONS

SYSTEM4 offers creative solutions for streamlined interior design. The modular elements make it easy to create open spaces suited to individual needs.

THE **CONFERENCE ROOM**

Whether it's a meeting, presentation or creative discussion – the conference room is where ideas take shape. **SYSTEM4** creates clean, functional structures that provide space for a plethora of working styles.

Tables, modular sideboards and serving trolleys can be combined to create a harmonious overall look. The result is a space that supports both organisation and communication in equal measure – striking, versatile and tidy.

ADAPTABILITY WITH STYLE

The timeless **SYSTEM4** aesthetic impresses with its unobtrusive integration, sophisticated appearance, and the ability to expand or intelligently organise workspaces at any time.

SHOPFITTING AND **EXHIBITION STANDS**

In the areas of shopfitting and exhibition stand construction, what matters is flexibility, brand recognition and quick adaptability. **SYSTEM4** offers all the right features: clean, timeless forms, modular elements, and a robust, high-quality appearance that reliably showcases brand identities.

The system can be easily reconfigured, expanded or adapted – making it ideal for changing exhibitions, pop-up events or seasonal displays. Well-conceived storage solutions, a variety of finishes as well as a timeless, understated aesthetic combine to create a professional stage for products, communication and brand identity.

ROOM **SYSTEMS**

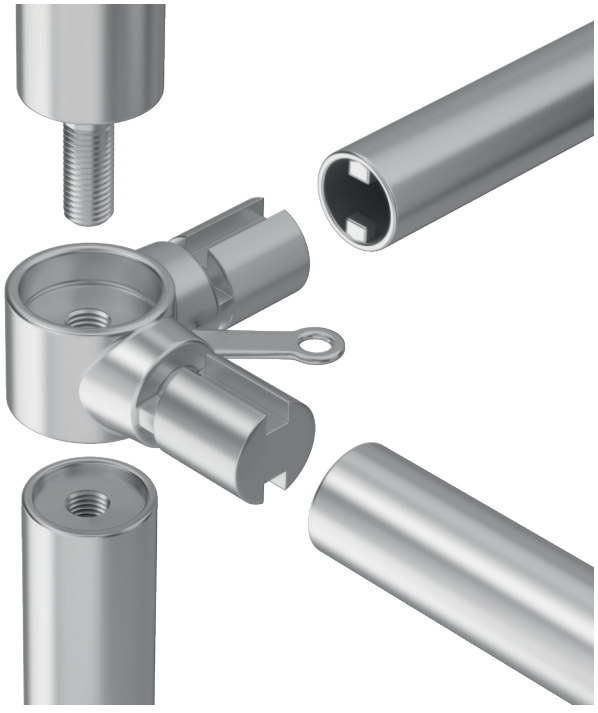
The sturdy **SYSTEM4** modules provide both fixed shelving solutions as well as mobile versions. Modular elements allow for maximum design flexibility and a consistent overall look – ideal for changing requirements and dynamic spatial concepts. Clear structures create spaces for presentations that can be rearranged at any time.

SYSTEM4 **CLICK**

ASSEMBLE. REARRANGE. DISASSEMBLE. NO TOOLS REQUIRED.

From the outside, everything remains just as you know it. Inside, we've taken things a step further: the new click-fit connector makes it possible to assemble our furniture completely without tools, in a matter of seconds.

The familiar tube structures snap together using a click mechanism. The result is a sturdy connection that can be decoupled again just as easily when needed.



SYSTEM4 SCREW SYSTEM

SYSTEM4 CLICK

CLICK INSTEAD OF SCREW

The concept becomes clear the moment you start using it. Whether it's an impromptu rearrangement, expansion to create new space or a compact transport solution.

FAST. Your furniture is set up in almost no time. This means that converting and extending the space can be done in just a few simple steps.

SIMPLE. The vertical struts are tightened by hand, and the horizontal struts click into place. That's all it takes.

PRECISE. Swiss engineering expertise and a high-precision manufacturing process ensure a reliable coupling.

ABSOLUTE **MODULARITY**

THE PERFECT FOUNDATION FOR TRANSFORMATION.

A sideboard today, a complete shelving system tomorrow. The modular design allows for extensions and customisations at any time. The furniture adapts exactly to your needs and any lifestyle – whether at home, in the office or for business projects.

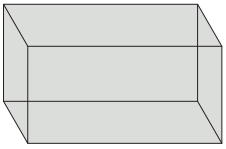
A PIECE OF FURNITURE – **WITH VERSATILITY**

MODULAR FURNITURE DESIGN IN 4 STEPS

Our modular **SYSTEM4** offers you flexible options for every room in your home. Whether in the study, the foyer or the living room – every piece of furniture is a real eye-catcher, no matter where you place it. Choose your favourite colour and the right combination of elements and details. Finish off by adding some practical extras. Decide for yourself how big you want your furniture to be, and mix and match to suit your taste. Our sales advisers will be happy to help you plan your modular furniture.

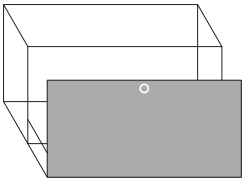
STEP 1 – FRAME ELEMENTS

Customise the height, width and depth of your frame. You have complete freedom to customise the design in terms of different pipe sizes, side attachments and heights.



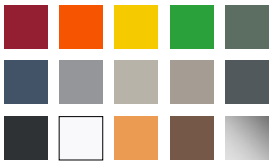
STEP 2 – ELEMENTS

Fit out your furniture with practical features such as drawers, tilt doors, and single or double doors.



STEP 3 – COLOUR

Choose your favourite colour from 15 options to design your dream furniture.



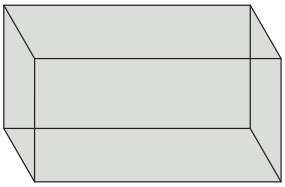
STEP 4 – ACCESSORIES

Choose the right extras for your furniture: for example, handles, locks, castors and matching wooden covers.

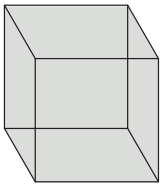
STEP 1 – FRAME ELEMENTS

VARIOUS ATTACHMENT OPTIONS

Customise the height, width and depth of your furniture. You have complete freedom to customise the design in terms of different pipe sizes, side attachments and heights.



75 × 37.5 × 37.5
Dimensions in cm (W x H x D)



37.5 × 37.5 × 37.5

THE **SYSTEM4 STORY**

A company is often only as successful as the people who run it. **Esther Streng**, the founder of **SYSTEM4**, has a keen business sense. Her career has been typified by visionary ideas and their successful implementation.

But the turn of the millennium called for something new. Tapping into its global network, the company launched the modular **SYSTEM4** furniture system in 2003. Mass production had already begun by the end of 2004. **SYSTEM4** seized on its manufacturing strengths and made a name for itself right from the start with high-quality products at competitive prices. And the rest is history.

We'll tell you some more anyway.

ESTHER **STRENG**

Managing Director and Founder

SUCCESS PRACTICALLY IN THE TIME IT TAKES TO ASSEMBLE THE FURNITURE.

In 2006, **SYSTEM4** entered into a major partnership with a large retailer. The products quickly became a must-have and proved so popular with the public that an exclusive showroom was opened in Dielsdorf, Switzerland. The key to success: unlimited design options, affordable prices and effortless self-assembly.

VISIONS THAT KNOW NO BOUNDARIES. AND CERTAINLY NO NATIONAL BORDERS.

A good product shouldn't be withheld from other countries. New distribution partners were secured at international trade fairs and events, paving the way for the distribution of **SYSTEM4** abroad to begin in 2007. This enabled **SYSTEM4** to strengthen its global presence.

MODERN STYLE. NOW IN THE REALM OF COMMUNICATION TOO.

The latest chapter is devoted to rebranding. With an expanded colour palette and a new brand identity, we're showing just what's possible. Flexibility is no longer just about reusability. It's also an expression of individuality.

CONSISTENCY. IN TERMS OF QUALITY AND PARTNERSHIPS.

Only through long-term partnerships can companies guarantee that quality, availability and compatibility meet customers' expectations. This is why we are particularly proud to have been working closely and successfully with our suppliers – all of whom are also family-owned – for over 25 years.

DIELSDORF IS THE HEART OF IT ALL. WITH AN EYE FOR DETAIL.

Dielsdorf boasts a thriving infrastructure. Here you will not only find engineers working on the latest innovations. It's also where the key quality and development processes take place. Our in-house testing department pays meticulous attention to product quality and tests colour accuracy and new colour schemes in our own on-premise light chamber. It is a place for making furniture – and statements, too.

SYSTEM4 IS WELL RECEIVED. AND MOST IMPORTANTLY – FAST.

To ensure resource-conserving and efficient logistics, we have a state-of-the-art high-bay and flow rack warehouse with over 12,000 pallet spaces. Ordered today, all standard colours are delivered to our customers three days later – with no compromises.

One more thing: We also rely on long-term partnerships when it comes to assembly. To date, our installation partner has assembled over 5,000 pieces of **SYSTEM4** furniture in private homes, businesses and public buildings. And perhaps soon in your home too!
